

It is About Teaching Children

Nobody ever joined the teaching profession because they loved going to school board meetings, doing paper work or demanding a fair salary. No.

They became a teacher because they wanted to teach children.

- LAE has worked to reduce class size from K-3 and continues to fight for 4-12.
- LAE fought for more planning time for teachers in order to help them be more effective.
- LAE demanded and got more materials and supplies so that teachers would not have to reach into their own pockets.
- LAE showed the importance of having elementary guidance counselors, media specialists and improved technology.

Countless times LAE steps forward to do what is necessary in order to provide children with the best education possible...and our work is not finished.

Get involved to help make LAE the organization you want it to be.

Belonging makes a difference.
