

Tomorrow

It has been many years since teachers have had to fight for sick leave or health insurance. We no longer must defend a teacher who has been fired because she was pregnant. Gender or race no longer determines salary.

Meeting these challenges together helped build our Association.

In a world of changing technology and changing social structure our issues are changing too. How will we meet the challenges of today and tomorrow?

What will it take to build upon the successes of the past and continue to advance the LAE mission to promote and strengthen public education...to advocate for our profession, our students and ourselves?

All of us...working together...now.

Get involved to help make LAE the organization you want it to be.

Belonging makes a difference.
